# Cricut Expression® 2 machine by Provo Craft

Cricut Expression® 2 machine
$299.99

Best of Times
Sampler Cartridge

By ordering a machine through your Consultant, you'll receive an exclusive-to-Creative Memories Best of Times Sampler Cartridge that can't be found in stores.

The Cricut Expression® 2 machine also comes with:

- 2 full cartridges: Cricut Alphabet and Cricut Essentials. These cartridges are preloaded and come with printed handbooks.
- a 12"x12" cutting mat
- three port covers

- one LCD screen protector
- quick start guide and user manual
- blade assembly
- stylus
- power adapter
- and USB cable

....

The Cricut Expression® 2 machine will do everything the Cricut Expression® machine can, plus these exciting new features:

- Compatible with all original Cricut® cartridges plus Cricut Imagine® Art cartridges. (The Cricut Expression® 2 machine cannot print, but it will cut the images from the Cricut Imagine® cartridges.)

- Larger, faster, full-color LCD touch-screen display with stylus. No keypad overlay required.

- Mat Preview: See the shapes you're cutting and where they fit on the mat before you cut.

- Material Setting: Choose a default setting for materials you like to cut (cardstock, regular paper, chip board, etc.), OR customize a material setting.

- Cutting-Area Light: A light underneath the cutting area to let you see where you're cutting on the mat.

- Layer View: See all creative features and layers right on the screen, including shift layers. No need to keep referring back to the handbook.

- Independent Image Sizing: Now you can size each image on its own. Make one image 3 inches and another one 5 1/2 inches and so on – all on the same mat. It's totally up to you.

- Multiple Mat Cutting: Now you can cut as many images as you want, even if the images won't all fit on one mat. Use up to six mats. Simply input the number of images you'd like, press cut, and the machine will prompt you when to load the next mat.

- Apply All: Apply all the edits (scale, flip, rotate, etc.) you do for one image to all the images on a mat at the same time with just one button.

- Image Spacing: Control the amount of space between shapes or letters on your mat.

- Pause Feature: Pause cutting in the middle of a cut, then resume where you left off.

Please note: Once opened, this product cannot be returned.
